THE GREATEST TEST

CHARACTER AND SERVICE CHRISTIAN NECESSITIES, SAYS MR. COX

LARGE CROWD AT SERMON

Four Ministers Participate in Baccalaureate Services at First Methodist Church—Musical Program.

Character and service are in the opinion of the Rev. Gilbert S. Cox, who preached the baccalaureate sermon to the High School graduates last night, the two tests of the highest attainment in this life. And the motive for the highest attainment, according to Mr. Cox, is the conscious power and presence of God working within us.

A large crowd filled the First Methodist church to overflowing and four ministers of the Protestant churches participated in the services. The prayer was made by Dr. S. A. Colle and the Scripture reading was given by the Rev. R. C. Holliday. The musical numbers were a solo by Mrs. Fred P. Robinson, with a violin obligato by Prof. Fred Lewis Hakel; a selection by the Normal girls' quartet and an anthem by the choir.

The graduates in caps and gowns of gray, and their families had reserved seats in the front of the church during the services.

The Rev. Mr. Cox in the treatment of his subject, "The Motive of the Highest Attainment," told how the power of God working in the lives of the young would bring about the development of the noblest character and give the chance for the greatest service in the world.

"Before the coming of Jesus Christ," said Mr. Cox, "Man used to be praised and honored in proportion to the authority which he possessed or the money at his command. After the coming of Christ the ideals of Christianity so permeated every walk of life that the test of a real man was not that of possession or of authority by merit. Christians did not ask, 'How much has he?' but they asked, 'What manner of man is he?'"

"The two tests of the highest attainment may be put briefly as follows: You are to be a pure, sincere, upright character, or you have not attained the heights; and your life must be a life of service in so far that you must have the ambition to make and not to mar the lives of those with whom you come in contact.

"There is no royal road to the attainment of character and service. But in order to do your part you must feel the power and presence of God

TWO R. C. NURSES KILLED

Hit by Shell Fire While Watching Gun Crew at Target Practice on Steamer.

Special to The Democrat-Forum.

American Port, May 21.—The steamer Mongolia which sailed Friday with a Red Cross unit, returned to this port today and reported the death of two Red Cross nurses by shell fire. The victims were, Mrs. Edith Ayers and Miss Helen Burnett Woods, both of Chicago. The gun crew indulged in target practice and the shell after striking the water took a centrifugal motion, returned to deck and killed two nurses watching the practice and wounded another.

TO STOP ATHLETICS

STATE INTER-COLLEGIATE ASS'N WILL VOTE ON QUESTION.

EFFECTIVE DURING WAR

Final Decision Will Be Made Within Next Few Weeks—Maryville Normal for Continuing Games.

There is a possibility that athletics in all the schools of the Missouri Inter-Collegiate association, of which Maryville Normal is a member, will be suspended during the continuance of the war. Practically all schools in the East and many in the middle West have already taken this step, and it has been under consideration for some time in the schools of the Missouri association.

A meeting of the officers of the association and representatives of the schools was held last Friday at Liberty in connection with the track and field meet. A full attendance was not present and the question of suspending athletics was not definitely decided, but arrangements were made to settle the matter within the next two weeks.

Walter Hanson, director of athletics at the Normal, who is secretary of the association, was instructed to communicate with all the members and take a vote on the question by mail. Mr. Hanson will write to the presidents of the schools who will inturn take up and decide the matter with the faculties of their respective schools. The final decision will be announced as soon as all the schools are heard from.

Two members of the association, William Jewell and Drury College, have already suspended their schedules for next year, and two more, Central and Westminster, are said to be contemplating the same step.

When asked as to Maryville Normal's stand on the question, Mr. Hanson announced that their vote would be for continuance of athletics, but the matter will have to be taken up with the president and faculty, before the question is decided.

The question of the suspension of athletics was the only matter of importance taken up by the association at this meeting. Two new schools, Palmer College of Albany and Kansas City Polytechnic, applied for admittance to the association. Their applications were referred to a committee. There are now twelve members of the association.

PASSES SPY BILL

ONE OF MOST DRASTIC MEASURES IN CONGRESSIONAL HISTORY.

THE CHIEF PROVISIONS

This Bill and Similar Measure Passed By the House Will Be Brought to Conference Soon.

(By W. C. Van Cleve).

Washington, D. C., May 16.—After three weeks discussion ranging all the way from press censorship to prohibition, the Senate has passed the espionage or "spy" bill. It is pronounced one of the most drastic and all inclusive measures in American congressional history.

A similar bill was passed by the House a couple of weeks ago and the two will have to be brought together in conference. The Senate passed the House bill but struck out all after the enacting clause and inserted a new bill. As completed the Senate bill's principal provisions are as follows:

Authority for the President to embargo exports when he finds that "the public safety and welfare so require." (Not in the House measure).

Authority for the Postoffice Department to censor mails and exclude mail matter deemed seditious, anarchistic or treasonable, and making its mailing punishable under heavy penalties. (Not in the House bill).

For punishment of espionage, defined in most detailed terms, including wrongful use of military information.

For the control of merchant vessels in American waters.

False Reports Punishable.

Punishment for conveyance of false reports to interfere with military operations, willful attempts to cause disaffection in the military or naval forces or obstruction of recruiting.

For the seizure of farms and munitions and prohibition of their exportation under certain conditions.

For penalizing conspiracies designed to harm American foreign relations or for destruction of property within the United States.

For increased restrictions upon issuance of passports, with penalties for their forgery or false procurement.

For material extension of the power to issue search warrants for inspection of premises.

Restores Embargo Clause.

The clause giving the President power to embargo exports was retained in the bill virtually as drafted by administration officials. It was modified once, but the unqualified provision was restored after its necessity had been explained last week in a day's session behind closed doors. This provision is designed to prevent the shipment of goods to countries which reship to Germany.

Vigorous efforts to retain provisions for newspaper censorship during the war culminated in a final vote yesterday in which the Senate voted 48 to 34 to eliminate all provisions for the press censorship.

Urges Censorship Feature.

On behalf of the administration forces Senator Overman, in charge of the bill, had moved to reinsert a modified censorship clause. As the House bill contains a provision for determination by the jury of culpability for violation of censorship regulations to be promulgated by the President, the administration is expected to bring strong pressure for drafting in conference of a compromise censorship section.

* * *

The House has passed a bill to increase the naval forces to 150,000 men. The present naval forces number 87,000 and they have been recruited up to their full strength by voluntary enlistment. The administration asked that the naval forces be enlarged during the war.

FIND OIL AND COAL

A. A. THUMMEL FARM AT PARNELL HAS RICH DEPOSITS.

SELLS LAND FOR $66,600

Judge Norton of Burlington, Ia., Buys Property After Thorough Investigation of Possibilities.

Oil wells and coal mines near Parnell are not only possible but probable if the findings and expectations of Judge Norton of Burlington, Ia., materalize.

In fact, Mr. Norton, after investigation of the 332 acres of farm land, situated about 2 miles northeast of Parnell and owned by A. A. Thummel decided that he would take a chance on both the coal and the oil prospects, and he paid the owner of the land $200 an acre.

Mr. Thummel signed the release to the land last Friday afternoon and received $66,600. Besides this, he will have one-third of the proceeds from any oil or coal that may be found on the property.

Mr. Thummel said this afternoon that Mr. Norton had been contemplating the purchase of this land for the last two years and had made frequent examinations with a view to buying. About one-half mile from the road, Mr. Thummel says, there is a ravine extending from a bluff. In this ravine the water is so thick with oil that a lighted match floated on it will keep burning. Indications that there are extensive coal deposits were just as satisfying and the result of Mr. Norton's investigation was the purchase of the land at this high figure.

Mr. Thummel must give possession March 1, 1918, and will then go to Colorado or to New Mexico for the purpose of locating a suitable cattle ranch in which to invest.

Mr. Thummel is the father of Mrs. Frank Reavis of Maryville.

NEW JOINT DRIVE

HAIG AND NIVELLE ARE WORKING TOGETHER ON WESTERN FRONT.

REPORT GREAT SUCCESS

Important Gains Attend Renewal of Hostilities in Champagne Region, and on Hindenburg Line.

Special to The Democrat-Forum.

London, May 21.—Both Haig and Nivelle are pounding the Germans with sledge hammer blows in a new joint drive on the Western front. In the fighting raging southeast of Arras the British have bitten deeper into the vaunted Hindenburg line. Important successes attended the renewal of the French pressure in the Champagne district. Near Mornville, the French captured several lines of German trenches and eight hundred prisoners. Strong German counter attacks were repulsed with heavy losses inflicted upon the Teutons.

London, May 21.—Hard fighting progressed all night east of Arras with the Germans trying vainly to drive the British from the ground won north and south of Sensee river Sunday. By breaking into the Hindenburg lines in this sector on a mile wide front between Bullecourt and Fontaineles Croiselles the British not only weakened the German position at the south end of Wottanswitz but imperilled the German garrisons at Choisy and Hendecourt.

The success of the British was followed by a strong German counter attack in which the attacking forces lost heavily under machine gun fire and barrage fire from the British. The French renewed their pressure against the German positions north of Aisne, and in Champagne and in Poise valley formerly the scene of violent fighting, the operations have been checked by the Germans opening the sluice gates and flooding the low ground.

"HE IS NERVOUS."

Is an expression frequently heard, but little is thought of it. The strenuous life being led by most of our people is conducive to nervousness, and not enough attention is given to its first appearance. The brain, heart and other organs are threatened and the condition constitutes, possibly, some deep-seated trouble that should have attention.

Dr. Prettyman, who has been coming here over eight years, treats nervous, chronic and catarrhal troubles, gets at the real cause and treats them understandingly. You can consult him free at his office, Linville Hotel, Maryville, Wednesday, May 30.

THE GREATEST TEST

(Continued from first page.)

working in your life.

All of the really great men and women of the world were conscious of this unseen power. The lives of Abraham, Moses, Isaiah and Joan of Arc are all examples of the power of God working through his creatures. And even the life of Jesus himself was no exception to the rule Jesus needed assurance during the days of his great trial on earth, and God was with Him all the while, making His Presence known by a voice from heaven.

"You cannot attain the highest things unless you have this motive power behind you. You may call it conversion or decision or whatever you will, but it must be present in your life.

"If you have it, no wicked influence can overtake you, and shipwreck your life, and on the other hand, you will be able to grasp all that is best in life by this power and grace and love of God."

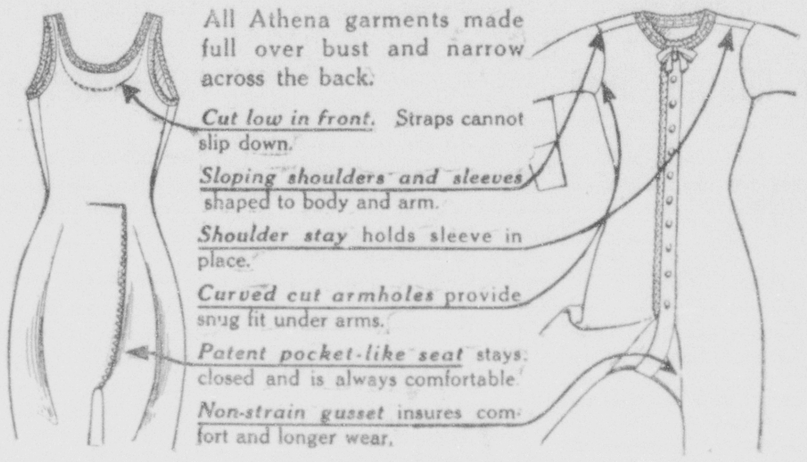
ATHENA
UNDERWEAR
FOR WOMEN AND CHILDREN

Special features which give ATHENA Underwear its comfort qualities, its daintiness and tailored fit:



All Athena garments made full over bust and narrow across the back.

Cut low in front. Straps cannot slip down.

Sloping shoulders and sleeves shaped to body and arm.

Shoulder stay holds sleeve in place.

Curved cut armholes provide snug fit under arms.

Patent pocket-like seat stays closed and is always comfortable.

Non-strain gusset insures comfort and longer wear.

You will realize as soon as you put on your first suit of ATHENA Underwear, which is tailored to conform to the lines of your figure, that it is wholly different from any other underwear.

You will find that it gives you freedom of action and comfort such as you have never enjoyed in underwear of any other kind.

ATHENA Underwear is *tailored* to conform to the lines of your figure without binding over the bust and around the hips or wrinkling at the waist.

ATHENA Underwear does not have to be *stretched* into shape.

Fold a suit of ATHENA Underwear sidewise, so that one leg lies flat upon the other. Then fold a suit of any other underwear in the same manner, and you will see the difference.

You will know then what is meant when it is said that ATHENA Underwear is *tailored* to conform to the lines of your figure.

All weights, sizes and qualities, at the prices you usually pay.

YOU can never tell how serious a blow out in one of your tires may prove. A large number of fatal accidents are caused by a blow-out. It doesn't pay to depend on a blow-out boot or patch to hold in a bad place on your tire. Bring them to us and let us repair them. We can do anything that can be done to tires—we have the largest tire repair shop in Northwest Missouri and the only genuine retreading machine. We don't "sew" tires together.

LAST GAME OF SEASON

Return Game With Tarkio Will Be Played Tomorrow Afternoon At the Normal.

The Normal's baseball season will close tomorrow afternoon with a return game with Tarkio College. The game will begin at 3:30 o'clock. If the regular diamond is in condition the game will be staged there; if not, it will be played on the grass diamond west of the grandstand.

The Normal team is somewhat disrupted by loss of players and lack of practice. Since their prize outfielder, "Bill" Todd, enlisted in the army, it has been hard to form a suitable outfield combination, and the team is now threatened with the loss of its third baseman and captain, Eugene Bird. Bird has been out of school for the last week and may not return in time to get in the game.

If Bird does not return his place will be taken by Wagers. Ferguson and Van Cleve have exchanged positions, the former going into the pitcher's box and the latter to shortstop. Allison will take first base and Girard second. Sawyers will continue at his old position, and the outfield will be made up of Scarlett, Wagers and DeMoss. If Wagers is shifted to third, Andrew will get an outfield job.

The Boils Of Lazarus
were eased by the dogs who licked the infected places, but they were not cured. Many modern people employ the same method in their treatment of boils, pimples, rashes, carbuncles, eczema and other skin diseases. They apply a salve or lotion to the sore places and fondly imagine they have cured them. The important fact which they fail to recognize is, that these skin diseases are diseases of the blood, and that no external treatment can permanently cure them, because they are essentially internal ailments. S. S. S. is the only proper remedy for this breaking out of the skin, because it acts upon the blood, cleansing and revitalizing it, and removing the cause of infection. It should be borne in mind that S. S. S. is purely vegetable, made from native roots, herbs and barks, and that it contains no habit-forming drugs or other injurious ingredients. Obtain a bottle of S. S. S. from your druggist and if you need the advice of a physician, write to the Medical Department, Swift Specific Co., 301 Swift Building, Atlanta, Ga.
